

Press Release

FOR IMMEDIATE RELEASE

\$5.6 MILLION AGED CARE EXPANSION APPROVED

Rubicon Grove, One Care's aged care facility at Port Sorell, today received the welcome news that its planning permit for an expansion of its services has been approved by Latrobe Council.

This \$5.6 million project includes the development of a new wing that will incorporate 20 x 1 bedroom suites, two resident lounges as well as a resident café, multi-purpose room and expanded staff room, laundry and kitchen.

"One Care's ongoing commitment to provide quality aged care at Rubicon Grove has been clearly reflected in the application received by Council and is reflective of the growing need for services throughout our aging state.

It is especially pleasing for Latrobe Council to provide the approval at this time of the year, which is a real shot in the arm for the local community.

Council looks forward to working with One Care in coming years to further enhance the opportunities for aged care in our Municipality," said Mayor Freshney.

"Now that the planning permit has been issued, One Care looks forward to submitting its building application to enable the project to commence within the next six months", said One Care CEO, Mr Norm Mcilpatrick.

At the completion of this project, Rubicon Grove will have 80 aged persons suites.
